## Who We Are?

Gulfoilandgas.com is a leading e-marketplace connecting over 350,000 professionals in the oil, gas, and unconventional resource industries across more than 200 countries. Online since 2003, we have been providing a comprehensive B2B platform for engineers and technical professionals to gain valuable insights and access to industry experts and partners in the upstream, midstream, and downstream sectors. As a trusted resource for purchasing decisions, we are committed to supporting the success of our members through our platform and opportunities for connection and collaboration.

## What We Do?

Gulfoilandgas.com delivers critical services that assist companies to grow their businesses in the energy and industrial sectors. We offer a wide range of membership services for the oil and gas industry, categorized by business functions.

### Marketing Products

Reach out to the global buyers of oil and gas. With 350,000+ members, GulfoilandGas.com is the primary online business gateway to the oil and gas markets.

### Business Development Products

A comprehensive portfolio of products and solutions designed to help executives and business developers promote their businesses and exploit opportunities across oil and gas markets.

### Financial & Investment Products

Our financial and investment tools are designed to enhance your new venture expansion and asset portfolio management. We conduct in-depth asset portfolio analyses for leading energy companies. We also coordinate and market farm-in and farm-out opportunities

### Technical & Operational Products

In-depth details of upstream assets and downstream plants in operation.

### Sourcing & Procurement Products

Gulfoilandgas.com procurement arms provide engineering procurement tools and services. Our strong sourcing skills enhance the analysis, selection, negotiation, and evaluation of suppliers.

### Recruitment Products

Our Career Center, which has over 70,000 resumes, is dedicated to assisting organizations in building their engineering and technical resources.

## Corporate Branding and Content Marketing

Connecting directly with your target audience is crucial for improving your brand image and increasing visibility for your products and services.

Gulfoilandgas.com provides you with the perfect platform to engage with the community and share information about your innovative products and solutions, your corporate social responsibility, and your commitment to the environment. By aligning your brand with independently produced business content written for business developers, engineers, and technical professionals, you can reach a highly targeted audience of oil and gas professionals through sponsored content, advertising options, and introductions to new products, services, and technologies. Our portal offers a range of options for displaying your message, including e-newsletters, banners with static or dynamic content, and multimedia content, ensuring that your brand is effectively communicated to visitors. Don't miss this opportunity to connect with this valuable audience.

**Deluge Valve, UL/ULC Listed - Fire certified valves**

Deluge Valve Model 1000, UL/ULC Listed, Globe Pattern, Proven Reliable Design. This valve is designed for use in controlling water flow to deluge, pre-action or foam-water type fire protection sprinkler systems. The valve is U.L. listed in "Special Systems Water Control Valves" (ULFTY). The valve is hydraulically-operated, diaphragm-actuated. It consists of three parts: the body, the cover, and the diaphragm assembly. The only moving part is the diaphragm. Pack less construction and simplicity of design assures long service life and dependable performance for this valve. All removable parts are fusion epoxy coated internally and externally for corrosion resistance, along with a delrin sleeve stem and Teflon coated removable seal.

**MATERIALS:** Body & Cover: Ductile iron ASTM A-536 UL, Internally & Externally Epoxied, 7mm Bronze ASTM B81; Diaphragm & Disc: Buna-N synthetic rubber. Other optional materials are available upon request. END DETAILS: Ductile iron 150 ANSI B16.42 flanged, Pressure rating: 150 class, 175 psi maximum OR 300 class, 400 psi maximum, Temperature range: Water to 180 F max.

**Values = Fire certified valves**
